

## *EDITORIAL FROM EDITOR-IN-CHIEF*

**International Science Congress Association** has been opened a new arena in the field of biological sciences by bringing forward 'ISCA Journal of Biological Sciences'. The vision of this journal is to innovate and conduct research that will enable and inspire biologists to improve the quality of life, meet the technical needs of industries and contribute to the economic viability of the world.

The objective of this journal is to revive biological sciences by publishing research papers, review papers, review articles, technical reports, mini reviews and short communications in diverse areas like Agriculture, Animal Sciences, Botany, Bio Chemistry, Biotechnology, Bioinformatics, Cell biology, Cryobiology, Ecology, Ethno-biology, Food technology, Forestry Sciences, Fishery Sciences, Forensic Sciences, Genetic Engineering, Home Sciences, Life Sciences, Molecular Biology, Microbiology, Medical Sciences, Nanotechnology, Pathology, Pharmaceutical Sciences, Toxicology, Veterinary Sciences, Zoology etc.

From the editor's desk, I wish all the authors and researchers for a great scope of research in all the above areas of biology. ISCA Journal of Biological Sciences provides a never ending ocean of knowledge where researchers can surf, drive and be winners.

With this new hope of light, I wish a very healthy communication between all my authors and readers.

**Prof. Dr. Dipak Sharma**

Editor-in-chief

ISCA Journal of Biological Sciences, Indore, MP, India
